

STATION 2: Adding Dependents

Clint Barton comes into your office with a 21-686C and some dependent documents because he just heard that VA pays veterans if they are married with kids. Unfortunately, you have submitted Clint's claim to VA already but will submit the 21-686C to VA after you check to ensure everything is correct.

Please review the provided files and answer the questions below:

1. What dependents are eligible to be claimed?

2. Were there any dependents that you did not add? If so, why?

3. What is the youngest child's birthday?

4. Did you find any mistakes on the 21-686C and if so what were they?
